**The Better World Shopping Guide** is a handbook and website dedicated to providing people with a comprehensive, up-to-date, reliable account of the social and environmental responsibility of every company on the planet AND making it available in practical forms that individuals can use in their everyday lives. Coming out of more than 5 years of intensive research, this work is based on a comprehensive database of over 1000 companies and utilizes 25+ reliable sources of data to cover everything from the environment to human rights, community development to animal protection.

Henry Lovejoy, President and Founder of EcoFish states: "We are thrilled to be recognized as the best environmental choice in seafood. EcoFish pioneered the sustainable seafood category ten years ago and we have worked tirelessly to impact positive change for the future for our oceans. Today the industry is starting to embrace sustainability as the future of our industry, which is a victory for everyone, including fish."

Author of The Better World Shopping Guide, Dr. Ellis Jones, states "Too many books discuss the world's problems without offering actions that the average person can take to make a difference. Our book is completely action oriented. We give you all the necessary information, making each action as simple as possible. EcoFish is an excellent example of a company with a progressive business model that is helping move a big industry toward better environmental stewardship."
